Course of Study.

Our course of study and business practice is the result of many years experience, and the best combination of business talent to be found in the country. It embraces those subjects only which pertain directly to a thorough Business Education. They are BOOK-KEEPING, both SINGLE AND DOUBLE ENTRY, of every description; COMMERCIAL ARITHMETIC, BUSINESS CORRESPONDENCE, and

Spencerian

Business Writing

Classification.

For the better accommodation and more rapid advancement of all students, our course of study is arranged and classified under two distinct heads or departments, rendering the whole more attractive and easier of comprehension.

INITIATORY.

In this department the student soon renounces his studies. He no longer acquires a new knowledge of the subject, but learns it through instruction in its practical, business, and commercial applications. Business is presented as a real, but unbroken domain for experimental and practical study. The paper of the student's application to this part of the study, he is admitted to the

PRACTICAL DEPARTMENT.

which is a kind of practical business school—entering, at once into practical Business Education. He never seeks to gain a theoretical definition of what he has already learned.

This subject is taught by fully explained, but his small practical lessons, there are no longer branches of a science. It will be sufficient for the purpose of general information, but never scientific. It is not a mere study department representing a scientific study, but a study of practice in handling of the real world.

In the practical department, but a student, the feature of the first part of their study for will be a practical study of the principles of business, and this will be the other colleges of the business education which was promptly filled.

In the practical department, but a student, the feature of the first part of their study for will be a practical study of the principles of business, and this will be the other colleges of the business education which was promptly filled.

Regular students of the College of the University of the State of New York, and other institutions of higher learning.

PLAN OF INSTRUCTION.

By a practical application of the necessities which are, wise in a school of this kind. In view of the general character of the population of the State, it has been practically ascertained that the only successful plan of giving instruction is by a practical application. In order to meet this requirement, a sufficient number of teachers, or teachers employed, so that each department is supervised by a competent professor with assistants, who devote their personal attention to each pupil.

By this plan, the absence of a student from school, from one or more sessions, will affect no one but himself. He can resume at any time where he may have left off, and advance with his studies as readily as his ordinary school ability will permit.

The superiority of this method over other methods of instruction will be seen at once and appreciated by all.

ENTRANCE.

Pupils can enter at any time—a convenience which is only secured by our popular plan of individual instruction.

QUALIFICATIONS.

No particular preparation is required before entering, beyond the rudiments of an English Education. Those who are not fully advanced to commence upon our Book Keeping course immediately, will receive all the necessary instruction required for preparation, without extra charge.

For terms and further information, and College documents, including splendid specimens of Spencerian Penmanship. (Enclose two red stamps.) Address,

M I C A ROOFING COMPANY.

MANUFACTURERS OF

73 Maiden Lane, N.Y.

IMPROVED ROOFING MATERIALS.

Colphones Roofing, Canvass Roofing, Roofing Paint, Roofing Felt, Roofing Pitch, Black Metallic Varnish.

Patent Canvas Roofing

The CANVAS ROOFING is adapted to buildings of every description, in all climates, and can be applied to steep or flat roofs, or over old Shingle Roofs, without removing the shingles. We recommend its use on Factories, Foundries, Store-houses, Cotton Sheds, Railroad Depots, and upon all buildings where steam is used and a Fire-proof Roof required.

The foundation of the Canvas Roofing is a heavy Cotton canvass, which is completely saturated and coated on both sides with our improved Water-proof Composition, which excludes moisture and prevents rot.

The upper surface of the Roofing is protected from action of the weather by covering it with the ground mineral Isinglass or Mica, which is pressed into the Water-proof Composition, making a hard surface of stone, beautiful in appearance, and a sure protection against fire. The Mica being a reflector and non-conductor of heat, no Roof is so cool in summer.

The Canvas Roofing is made in sheets containing a surface of 250 square feet in each sheet. The sheets of Roofing are rolled into compact rolls, and boxed for shipping. This Roofing has only to be nailed to the roof to make a durable Fire and Water-proof Roof.

Patent Roofing Paint.

This Paint has been in extensive use for over twelve years, and it is the best coating that can be used for Tin Roofing. Leaky Tin Roofs can be readily repaired to last many years at a trifling expense, that will in many cases, save the expense of a new Tin Roof.

Roofing Paint mixed ready for use, so that it can be put on with the ordinary paint brush. Price, \$40 per barrel of 40 gallons. Directions for repairing roofs with this paint will be sent with each shipment.

Felt, Cement and Gravel Roofing Tarred Felt Paper, Roofing Pitch.

We have recently enlarged our works, and are prepared to offer our old Customers and Roofers generally, superior inducements in the way of Prices.

All the Felt and Pitch sold by us will be of the best quality known to the trade, and care will be taken to have goods shipped in good order.

We are also ready to furnish Roofing Gravel by Ton or Cargo, and shall keep on hand a stock of Dry Felt for parties wishing to tar their own paper.

Colphones Cement—For Stopping Leaks around Chimneys, Windows, Gutters, Skylights, and Shingle Roof.

The Colphones Cement is put up in packages of from one to five gallons, price \$1 50 per gallon.

Leaks around Chimneys, Windows, &c., may be permanently cured by the use of this cement. It can be applied with the ordinary trowel, or any flat piece of metal.

Shingle Roofs that leak may be made perfectly water-tight by filling the places where the shingles have drawn a part with the Colphones Cement; and if the shingles are old paint the entire roof with the roofing paint.

We want good responsible agents in all places; with such we will make liberal arrangements for the sale of our goods.

NEW ARRANGEMENT.

The Raleigh Sentinel, having passed under the editorial management of the undersigned, it will, from the present date, be conducted by him.

It will be the zealous and fearless advocate of the Constitution of the United States, seeking to bring the people back to their ancient reverence for that immortal instrument, and to restore the policy of the country to that honored standard, as the only guarantee of National prosperity.

It will do justice to the men and measures of the present day, whenever they merit it, but it will unsparingly lash and denounce all who set themselves up in opposition to the Federal Constitution, and hold up to the public indignation corruption and imbecility in high places.

It will ardently seek the promotion of the best interests of North Carolina—moral, educational, material and political.

The Latest News from Every Quarter,

Both by mail and telegraph, will be carefully collated and presented.

Full and correct market and financial reports will be given. And, in one word, no effort will be spared to make the SENTINEL, in all respects, a reliable

National Life Insurance Co.,
 Of the United States of America.

It was chartered by a special Act of Congress, with a capital of *One Million Dollars*, which was subscribed and paid in cash on the 25th of August, 1868. On the first day of March last, it had issued 3582 Policies amounting to over \$10,000,000, and the receipts for premiums exceeded \$350,000.

The Cost of Insurance is reduced to the Lowest Minimum Cash Rate.

which is so far below the cost of a Policy in any company that can afford to loan a part of the premium, that none but first class risks are taken--consequently only TWO losses, amounting to \$3,000 have occurred since the Company was organized. There are several

Distinctive Features

in this Company. One, very popular, is the RETURN OF PREMIUM The policy being increased annually, the amount paid by the policy-holder The Income Producing Policy secures to the policy-holder one tenth the face of the policy, as long as he lives after ten years.

From present indications it is thought that 10,000 policies will be issued the first year.

The Mutual Life of New York is regarded as the largest Company in the world. It issued but 470 Policies the first year, and but 2843 its twentieth year, this latter being 600 less than the National issued the first seven months.

READY-ROOFING

Ready-Roofing Company,
81 Maiden Lane, New York.

GREAT IMPROVEMENT IN SHEATING HOUSES!

Our Roofing is adapted to buildings of all discriptions, and in all climates, and can be applied to steep or flat roofs, old or new, and by ordinary workmen, at a trifling expence.

Its superior method of construction, uniformity of quality, completeness of finish, facility of application, cheapness and durability, justify us in recommending this Roofing, as combining more merits and fewer faults than any other kind of roofing now in use.

It unites the best Water-proof Composition with the best Water-proof Fabric in the best manner, (secured by patten,) and at the lowest price to the consumer.

Our Roofing is not injured by heat or cold, nor shrinking of roof boards, and can be applied to old shingle roofs without removing the shingles, but it is better to have them taken off and then place it directly on the boards, which must be laid close together.

DIRECTIONS FOR USE.

Sweep the roof clean. If there are any large holes or cracks in the tin, have them soldered tight, then apply the Paint over the whole surface, useing a large brush with a long handle. A common white brush will answer every purpose. One coat is sufficient, but when two are desired let the first have three or four days to set and harden before applying the second coat. One gallon will cover two hundred square feet,

HOW SHALL WE PAINT OUR HOUSES?

READY-MADE COLORS,

*For Painting Exteriors and Interiors of
COUNTRY AND CITY HOUSES.*

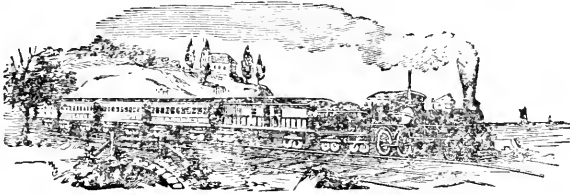

These paints require only to be thined with Raw or Boiled Linseed Oil or Turpentine to make them ready for use. The list includes forty shades and tints, comprising all the colors suitable for painting. In durability and permanency of color they will be found superior in every respect to pure White Lead, while they cost (considering the quantity required) only about half as much.

Sample Cards, with a descriptive pamphlet, sent free by mail. Be sure you get the genuine "RAIL ROAD" Colors, every package of which bears our full name, in addition to our copy-righted title, "RAILROAD PAINTS AND RAIROAD COLORS." None are reliable which do not bear these marks.

We would call attention, also, to our WARRANTED PERFECTLY PURE COMBINATION WHITE LEAD, which for economy and durability, is the best in market. BRANSON'S

NORTH CAROLINA

Business Directory,

FOR 1869,

Containing Facts, Figures, Names and Locations.

REVISED AND CORRECTED ANNUALLY.

*An accurate knowledge of Names and Locations,
Brings Men nearer together, and quickens trade.*

RALEIGH:
J. A. JONES, PUBLISHER,

(SUCCESSOR TO BRANSON FAERAR & Co.,)

No. 15, Fayetteville Street.

Entered according to Act of Congress, in the year 1867, in the Clerk's Office of the District
Court of the United States, for the Pamlico District of North Carolina.

FRATERNAL.

THIS BOOK will do you good.

Don't *read* it, but keep it by you, and *refer to it* frequently.

This work contains much that you never knew. Our State is rich; *you* should know it: look at the records within.

There are eighty-nine counties in the State, over *two hundred* Mines, and forty Cotton Factories, employing nearly *three million* dollars of capital. Look at page 181.

All the Counties use the Directory. Hundreds of copies are used in the North and West. See how the *emigrants* begin to come! From the Directory they get information in *detail*.

They *examine* the records—they *see* our natural wealth—they *come*—they *buy*, and North Carolina is *richer*.

See the 197th page—how we *read*. Over 2,300 prominent farmers are reported this year. Also, an *alphabetical* list of Post Offices, and a thousand other things not given last year.

The DIRECTORY is now a fixed necessity. To make this Book profitable to *you*, select *carefully* such names as seem favorable and direct your letters or circulars to *them*. Frequent communication *brings* us nearer together—*enlivens* trade life, and *increases* the socialities of commercial intercourse.

Our Correspondents and Agents in all the counties will accept our thanks for prompt and valuable services.

A number of gentlemen in *Official* positions have kindly given us much useful information.

J. A. JONES, PUBLISHER.

L. BRANSON, *General Agent*.

MINES.

(A statement of the most Productive Mines in Cabarrus County, Dec. 1868.—By CAPT. W. H. ORCHARD, (*Practical Miner.*)

THE REED MINE, is situated about 12 miles south from Concord, the largest nugget found in the State was found at this mine; the ores on the lower hill veins are exceedingly rich; of late years no work has been done on that part of the mine; the upper hill has been very rich in places and it is thought the mine would pay well, with proper management—depth 100 feet. Owned by Philadelphia parties.

THE FURR MINE, adjoining the REED on the North side, has been very recently opened, a shaft has been sunk 75ft.—vein carrying galena rich in silver with iron pyrites and quartz.—Owned by Allen Furr, Cabarrus.

THE FIRST NATIONAL MINES, is situated

9 miles S. E. from Concord, and consists of a large quartz ledge; a 20 stamp mill with the necessary steam power has been erected during the present year; but little work has been done to test the value of the mine.—Owned by a N. Y. Company.

THE CABARRUS MINE adjoining is on the same ledge; a 16 stamp mill is in process of erection but like the First National it is entirely undeveloped.—Owned by a Washington D. C. Company.

THE PHOENIX MINES, is situated 7 miles S. E. from Concord; this property has several veins, all of which are productive. The property is in the very heart of the mineral belt, and has steam power with 10 stamp mill complete, and has yielded some 930,000 dollars; it is, beyond doubt, one of the most valuable property's in the State.—Owned mostly by R. T. Brock.

THE EXCELSIOR MINE, adjoining the Phoenix on the east, is another valuable property, and has mostly the same veins passing through it; this property has not been worked to the same extent as the Phoenix and therefore has yielded less.—Owned by W. P. Fumiss New York.

THE BANGLE MINE, is situated to the North of the Phoenix, and adjoining; this property is also very extensive, and embraces a great number of veins, so extensive that, if properly opened, would yield fifty ton of ore per day.—Owned by R. D. Cullen New York.

To the North and adjoining the Bangle Mines is the FAGGERT MINE; this property is much smaller in extent than those before mentioned, but is a valuable mine.—Owned by J. T. Faggert, Cabarrus, Co.

THE NORTH BARRIER MINES, is situated to the south of the Phoenix, and adjoining. It embraces some of the Phoenix veins; two steam engines with a 10 stamp mill are erected on the mine and in operation; the prospects of the mine are very flattering.—Owned by a Washington D. C. Company.

THE BARRIER property is adjoining the North Barrier Mine to the S. W., and from which the North Barrier Mine takes its name; this property is very valuable and was always considered by the late Professor Emmons as one among the most valuable mines on the Atlantic coast.

THE PIONEER MILLS MINE, is one among the earliest discovered mines of the State; it is situated about 12 miles S. W. from Concord; this mine has yielded large amounts of gold, and is a valuable property as well for copper as gold.—Owned by Aiken & McCulloch Albany N. Y.

There are a number of smaller properties, but not sufficiently developed to establish

a permanent existence, although some are in actual operation—(to wit):

The Fisher Mine in operation by a Pittsburg Pa. Co.

The Blackwelder Mine in operation by a Buffalo N. Y. Co.

The Blackwelder, Bost, Ritchie, Baringer.—Owned in the county but not worked.

The Cruse, Sudwick, Shipcock, Dry, Barnhardt, Barrier, (on Buffalo Creek on the First National Ledge,) Shinn, Freedman, Rhoda Furr, (on the First National Mine Ledge,) Tucker, Fink, Boger, Gilliam's, Newell, Pharr, Bost or Rocky River. Owned in the county and worked.

Several of these having no history will some day after a thorough development of the gold resources of this county prove to be valuable mines and yielding largely of the precious metals.

VINEYARDS.

D. W. C. Benbow has 15 acres in Catawba Grape Vines in Guilford County, 15 miles northwest of Greensboro. He made the past vintage 1,100 gallons pure Catawba wine.

He finds ready sale for his wine at remunerative prices.

He is also planting another Vineyard within two miles of this place—Greensboro.

SURFACE.—Pleasantly undulating, soil good, water power very fine.

STAPLES.—Tobacco, Corn, Wheat and Fruits in great variety—green and dried.

NORTHAMPTON.

NORTHAMPTON.

SURFACE—Level, sandy loam—much of it swampy—quite rich and very productive when well drained.

STAPLES—Cotton, Corn, Rice, Ground Peas, Vegetables, Naval Stores and Fish. (The climate and soil make this county very valuable for Trucking, vegetation being some 24 days earlier than at Norfolk.)

(All the names in this County are in Wilmington unless otherwise designated.)

Governors of North Carolina.

On the fourth day of July, 1584, the first Europeans landed on the coast of North Carolina. These were the crews of two vessels, fitted out for the purpose of making discoveries in the new World, under the auspices of Sir Walter Raleigh, and were commanded by Philip Armidas and Arthur Barlow. They landed on Roanoke Island, in what is now Currituck county.

The first permanent settle in the State was made by a colony from Virginia, under Roger Green, in 1653, on the Roanoke and Chowan Rivers.

In 1663, Charles II granted to Edward, Earl of Clarendon; George, Duke of Albemarle; William, Earl of Craven; John, Lord Berkeley; Anthony, Lord Ashley; Sir George Carteret, Sir John Colleton and Sir William Berkeley, all the territory now embraced in the State of North Carolina, and west to the Pacific Ocean.

In 1693 the colony was divided into North and South Carolina.

North Carolina was governed by Governors appointed by the Lords Proprietors from 1663 to 1729, when the colony was surrendered to the crown.

AT THE PARIS EXPOSITION,
July, 1867.

NO. 1, FAMILY MACHINE.

This machine is constructed on a new principle of mechanism, possessing many rare and valuable improvements, having been examined by the most profound experts, and pronounced to be

Simplicity and Perfection Combined.

The following are the principal objections urged against Sewing Machines :

1. Excessive fatigue to the operator.
2. Liability to get out of order.
3. Expense, trouble, and loss of time in repairing.
4. Incapacity to sew every description of material.
5. Disagreeable noise while in operation.

The Empire Sewing Machine is Exempt from all these Objections.

It has a straight needle, perpendicular action, makes the lock or shuttle stitch, which will neither rip or ravel, and is alike on both sides ; performs perfect sewing on every description of material, with cotton, linen or silk thread, from the coarsest to the finest number.

It Hems, Fells, Binds, Braids, Tucks, Quilts, Plaits and Gathers.

As a Family Sewing Machine it has no Superior.

Special attention is called to our new

Nos. 2 and 3, Manufacturing Machines.

They have been thoroughly tested on every description of cloth and Leather Work, running by steam power at the rate of

1200 Stitches per Minute.

Producing more than double the work of any other shuttle Machine now in use; the stitch is tight, uniform, and beautiful; they are simple in construction, easily understood, and not liable to get out of order, run light, and are comparatively noiseless.

For Tailoring or Leather work we claim that they are not only equal, but much superior to any other machine that has ever been offered to the public.

In the prepration of these very superior and excellent Pills, no cost or
 trouble is spared to insure the greatest possible degree of perfection, in point
 of utility, excellence and comfort. They contain one article which hasprob-
 ably never before been used as a medicine, and which is a powerful agent
 in cleansing the Liver, (which gives them an advantage over every other
 Pill heretofore offered to the public.) The composition used in these Pills
 is carefully prepared by the hand of the discoverer, and may be used by
 the most feeble patient in the most delicate situation, either male or female,
 and from their peculiar combination are highly strengthening, mild in their
 action on the bowels, and, indeed, in a climate like ours, where colds and
 coughs are almost an unfailling consequence of the sudden changes to which
 all are subject, every one at all liable to suffer from the influence of these
 causes, will find the greatest security in having his liver and bowels well
 cleansed by these invaluable Pills.

The symptoms of a TORPID LIVER are these: a dull pain in the right side,
 which is more sensible upon pressure: an inability to lie on the left side, pain
 in the right shoulder, a sallow complexion and depression of spirits. When
 the disease of the Liver becomes chronic, there is a want of appetite, pains
 and fullness of the stomach, belching, heart-burn, sour stomach, irregu-
 larity of the bowels; which, however are costive; dryness of the skin and
 pain in the head. When the liver is torpid, it fails io supply the amount
 of bile necessary to carry on digestion, and produces Dyspepsia, Chills and
 Fever, Jaundice, Bilious Fever and Yellow Fever. Many cases which are
 considered Consumption are merely cases of Liver Complaint. When the
 Liver is fevered, it enlarges and presses upon the lungs, causing tightness
 of the chest, wheezing, cough, and all symptoms of Asthma and Consump-
 tion. The proprietor recommends these pills *only* for *Liver Disease* and such
 ailments as arise from disorders of the Liver, but his correspondents re-
 commend them for divers diseases, some of them especially for what they

call "lung diseases" or "consumptions." There is no ingredient in them which can give relief to *pulmonary* consumption, so far as the discoverer knows; but very eminent medical authorities cite cases where the enlarged liver fastens on the lungs and discharges its abscesses *through* the lungs. This explains the certificates given for the favorable action of the pills in consumption.

LIVER COMPLAINTS arise from torpidity of the liver, causing a scanty flow of bile—inflammation of that organ producing bilious overflow into the stomach and intestines, or form a general derangement of the digestive apparatus in which the liver is involved. Obstruction of the bile duct crowds the bile back into the blood, with which it then circulates over the whole body, causing disastrous effects upon the health. Indeed, either of the above described derangements of the functions of the liver produces a countless train of evils; the skin becomes dark, or a greasy yellow; the tongue is generally coated white or brown. When the functions of the liver are disordered, the food is imperfectly digested, and the patient will suffer from costiveness, or diarrhoea, or both; sometimes he will have a voracious appetite, and sometimes loathe his food; is generally drowsy, languid and melancholy, but sometimes watchful and sleepless; great weariness and faintness are common symptoms, and also palpitation of the heart. Sometimes the skin breaks out in pimples, tumors, blotches, ulcers, boils and sores, and sometimes the patient is afflicted with intolerable itchings, erysipelas, or St. Anthony's fire, and frequently with an intolerable restlessness. The irritation from surcharged bile in the blood often produces a severe dry cough, most troublesome in the night, with a dry, ropy expectoration, often nausea and vomiting.

From the blood the bile passes into the kidneys, producing sealding pain in the urinary passages, pain in the back and side, and darting pains through the body. A soreness is frequently felt in the region of the liver, across the stomach below the ribs. In some cases, abscesses form in the liver, but these are more rare. Many dangerous complaints have their origin in derangement of the liver, such as Indigestiveness, Costiveness, Intermittent and Remittent Fevers, Bilious Fever, Colic, Bilious Dysentery and Diarrhoea, Chills, Fevers, &c.

For all these diseases, the proprietor considers the HEPATIC PILLS a powerful and safe remedy.

☞ Read the following *Certificates* from persons of the highest respectability. ☞

REV. DR. C. F. DEEMS, (Aug. 23d, 1862) says: "I have derived *great benefit* from these Pills, and have known many families and individuals who have found them very beneficial, and I have also known *physicians in excellent standing to recommend them to their patients*. For all diseases arising from disorders of the liver, I believe they are the best medicine offered to the public."

WM. CARRAWAY, ESQ., Wayne Co., N. C., (Sept. 1, 1862) says: "I have used the *Southern Hepatic Pills* in my family. My daughter was in very bad health from disorder of the liver, *for the space of three years*, hardly having had a week without suffering. She took the Pills regularly and strictly according to the direction on the wrapper, *and her health has been entirely restored by them*. I have used them with great benefit among my servants on the plantation, and can recommend them as a *safe and useful family medicine*."

CAPT. WM. P. DAVIS, (Petersburg, Va., Oct. 1, 1857.) says: "Sinopathy for the suffering prompts me to certify that my servant man was suffering in the last stage of Pneumonia, throwing up matter and blood in great quantities; his case was considered entirely hopeless so much so that there were no medical prescriptions used for his recovery; I regarded him as good as dead. Hearing of the great cures made by the SOUTHERN HEPATIC PILLS, I thought that I would try an experiment on him; without any hope of success however, I gave the PILLS in large doses; in a short time, to my great surprise, there was a change for the better; I continued giving them to him, until he had become a *perfectly sound man*. He is now attending to his work with as much strength and vigor as he ever did. With his case, and what I have seen and heard of the good effects of these Pills, I do most earnestly recommend them as the *best family medicine* I have ever seen or used, *especially for Planters in the South*."

They can be sent to any point in the United States by Mail or Express.

Price:—For one box, 25 cents.—Doz. \$2.50—Half Gross, \$10—One Gross \$18—Three Gross \$50—Five Gross, \$75. The cash must either accompany the order for the Medicine or it will be sent C. O. D. Orders should be addressed to G. W. DEEMS, No. 28 South Calhoun Street, Baltimore, Md., where they will be promptly attended to.

For these Medicines call on all respectable Druggists everywhere, and on all the Druggists in this city.

These Pills are for sale in Raleigh by Williams & Haywood & P. F. Pescud, & all other Druggists elsewhere,

NORTH STATE WASHING MACHINE.

Best in Use.

Patented October 15th, 1867, by Bernhardt & Houston, and Manufactured by

**Mecklenburg Mechanical Association,
Charlotte, N. C.**

DIRECTIONS.

FIRST.—Fill the tub to the middle, or top, of the second roller with boiling suds

SECOND.—Put in four or five shirts, or that amount, of other garments.

THIRD.—Work the lever with sufficient force to give the CLOTHES A ROLLING MOTION, separating them, occasionally, from the roll into which they form. From eight to ten minutes is time sufficient to wash the above amount of articles.

Certificates.

Charlotte, N. C., February 25, 1868.—Messrs. Bernhardt & Houston:—I have had your Machine in use for two months, and feel that I can recommend it as decidedly THE BEST I have ever tried, it saves at least HALF the labor, and the washing is done with much less soap, than by the old process. When I first procured the Machine, the servants seemed averse to using it, but now say they would not be without it. To use the expression of one of them, to me, the other day—"tis a good help and no mistake."

MRS. M. A. BURWELL

Charlotte Female Institute.

Charlotte, N. C., Nov. 30, 1867.—Messrs. Bernhardt & Houston:—Sirs: I have tried your Washing Machine, and fully concur in everything that Mrs. Burwell says in regard to it.

Yours, truly,

MRS. DR. J. M. MILLER.

MECKLENBURG FEMALE COLLEGE,

Charlotte, N. C., Jan. 11, 1868.

Messrs. Bernhardt & Houston:—We use the "North State Washing Machine" at the College, and are happy to state that it gives entire satisfaction. It is admirably constructed, and can be heartily recommended.

MRS. C. F. STACY.

Charlotte, N. C., Nov. 30, 1867.—Messrs. Bernhardt & Houston, Sirs:—The "North State Washing Machine" is really more than I expected, and I can, with candor, say there is no humbug about it. My servants say that it does its work as well as it can be done by hand; and I take pleasure in recommending your Machine to my friends, and all who desire a labor-saving Machine. Best wishes for your success.

Respectfully yours,

MRS. DAVID PARKS.

Bellevue, Cabarrus County, N. C.—Messrs. Bernhardt & Houston:—I have given your Machine a fair trial, and pronounce it a perfect success. I would not be without one for twice the cost.

In hiring servants my great trouble was to get one that would wash well, and that was my first question. Of course they said yes, but did not always do it. The machine relieves me of that care, for whether a good or bad washer, if they can work the machine (and almost any one can do that) they are obliged to wash well.

Very respectfully

February 25, 1868.

MRS. GEN. W. C. MEANS.

Office of Land We Love.—We have tried the above Machine in our families, and know it to be admirable.

My Celebrated Rat Destroyer always on hand. 50c. per box or \$4 per dozen.

Dr. G. H. Livingston, Dear Sir; My Wife was for many years subject to severe and danger- ous hemorrhage from the lungs. In Feb. 1863 she was so reduced that her life was despaired of by one of the best Physicians in the State. By accident, or by the directions of Providence, I heard of your Florida Balm, and purchased a bottle. After much persuasion she was in- duced to try it, when she found instant relief, several times afterwards she was threatened with return of hemorrhage but found instant relief, by the use of one or two doses. She attributes her present existence, by the help of God to the use of your valuable medicine. She has not been troubled with hemorrhage for more than two years, and wants all persons specially females afflicted in the same way to try your valuable remedy, therefore she speaks of herbenefits in this public manner.

J. P. MASON.

From Algernon S. Womack, Esq.,

Dr. Livingston, Dear Sir: I have used your Florida Balm in my family for years and have found it first rate for Pain in the Back, and for sore Throat it cannot be beaten and I am of the opinion every family should by all means have a bottle of it. I hope you may have success in affecting large sales.

ALGERNON S. WOMACK,

Yanceyville, June 30th, 1868.

From Hon. John Kerr.

Dr. Livingston, Dear Sir: for several years I have used your Florida Balm, and find it to be without comparison, the best family medicine I have ever been able to procure. For Summer diseases of the bowels, for all forms of cutaneous eruption and for piles it is ac- cording to my observation, a sovereign remedy. I wish you much success in the sale of it, as well for the benefit of others as for your own advantage.

Very truly your friend,
JOHN KERR.

Certain Cure for Colic in Horses.

I certify that I had a horse badly afflicted with Cholice and gave him Livingston's Florida Balm which afforded almost immediate relief.

N. K. ROAN.

Danville, Va., Oct. 7 1868,

From Dr. Brackin, of Caswell.

Dr. Livingston: From the knowledge which I have of your Florida Balm, it affords me pleasure to say to you that I look upon it as being a highly valuable remedy for the relief and cure of the various forms of disease for which you have recommended it. It is very extensively used in the neighborhood in which I am practising, and I have not heard of a single instance where it has not given entire satisfaction. I am therefore pleased to say to the afflicted generally, that if you wish a prompt and efficient remedy, try Dr. Livingston's FLORIDA BALM.

I am, with much esteem, yours, &c.,
S. E. BRACKIN, M. D.

July 17th, 1868.

From Hon. C. A. Cillely.

LENOIR, N. C. Aug. 7, 1868.

Dr. G. Livingston:—I have used your Florida Balm for some of the purposes indicated by your printed directions, and find that it performs all you claim for it. I hope you will be very successful in your plan for introducing it more extensively.

Very truly, your friend,
CLINTON A. CILLEY,

From Hon. A. Mitchell.

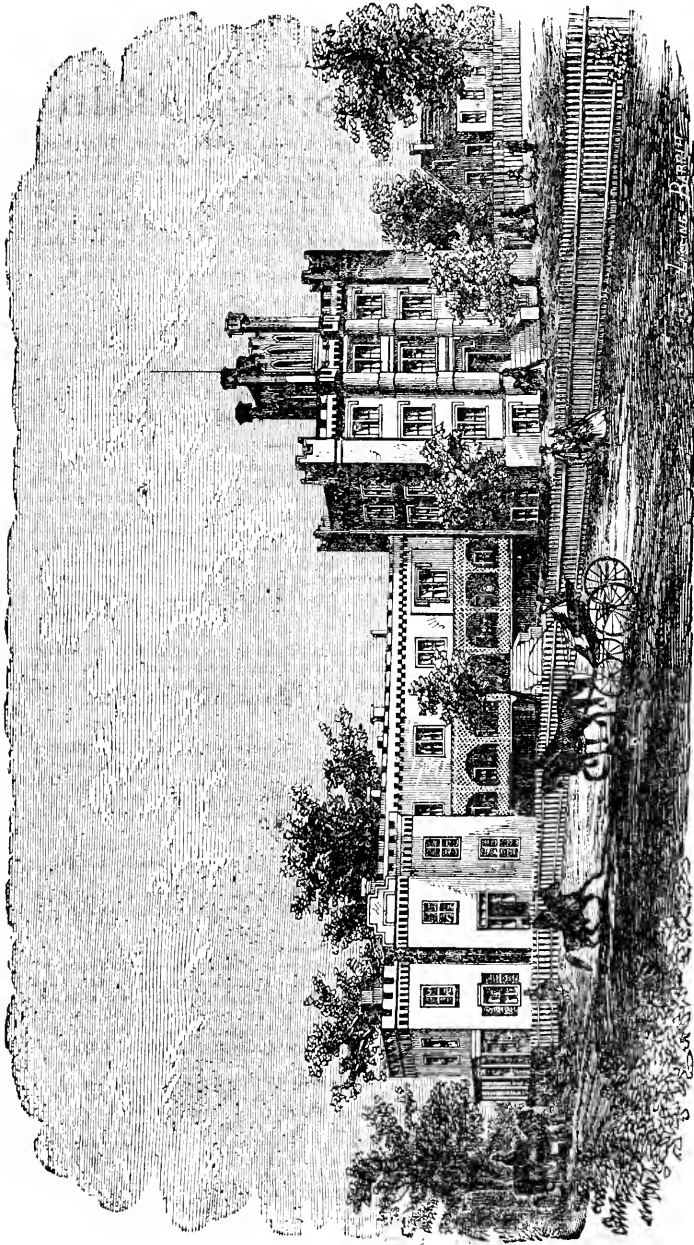

In using Dr. Livingston's Florida Balm two or three times to sooth an irritation of the skin, it appeared to be an effective remedy for that purpose,

Sept. 9th, 1868.

 Address with Stamp,
North Carolina Cottage Loom Co.,

RALEIGH, N. C.

Executive Endorsement.

Raleigh, N. C., Aug. 18, 1868

Sir:—It gives me pleasure to say, that having examined and seen in operation the NORTH CAROLINA COTTAGE LOOM, I regard it as simple, cheap, and as calculated to do good work, rapidly with very little power. I would be glad to see this Loom in general use among our people, as I am satisfied it would be as profitable in many respects as it is cheap and convenient. It would be especially advantageous if employed in the work-houses of the State.

Very respectfully,

W. W. HOLDEN,
Governor of North Carolina.

RALEIGH, Aug. 28th 1868

At the request of W. H. Cuninggim, General Agent, I have examined the MENDENHALL LOOM in operation. I make no pretensions to skill in weaving or to mechanical ingenuity, but as far as I am capable of judging by observation, together with certificates as to its use in other States, I am satisfied this is a very ingenious and very useful invention giving encouragement to home enterprise and useful employment to female industry.

JONATHAN WORTH.
Late Governor of North Carolina.

SEABOARD AT NEW-BERNE AND MOREHEAD CITY.

The State owns three-fourths of the North Carolina Railroad, and three-fourths of the Atlantic and North Carolina Railroad. This is the

STATE LINE

To its own Seaports, and on its own Road. A six per cent dividend on this line will save the people from taxation \$295,000 per annum. This is the Line to encourage. You get dispatch, safety, but one handling, and less Railroad transportation than by any other line. Three-fourths of the profits made on this line go directly into the State Treasury, and if encouraged, you will soon be relieved from heavy taxation at least two hundred and ninety-five thousand dollars.

The Railroads composing the NORTH CAROLINA GRAND TRUNK RAILWAY Line have recently agreed to unite in a

A Paper for the People.

THE BALTIMORE EPISCOPAL METHODIST, while it is able and fearless in its defense of the doctrines and polity of the Methodist Episcopal Church, South, it is in no partizan sense denominational.

It is a Metropolitan paper, adapted to every part of our country, and receives the support of Clergymen and Christians of all denominations.

It is an independent paper, and as such has been self-supporting, without involving the Church or Conference in the labor or expence of the enterprise.

It is eagerly sought for by the children as well as by adults, and abounds with the most useful information in every department—Secular and Religious.

It is a most efficient, constant and successful assistant to our Ministers in their pulpit and pastoral work.

TO FRUIT AND TRUCK GROWERS.

WILMINGTON & WELDON R. R. CO.,
Wilmington, N. C., March 10, 1869.

The following directions for putting up and forwarding packages are published for the information of all concerned :

A train will leave Wilmington daily, except Sundays, as soon the business will justify it, say by the 10th or 15th of April, at about 5 o'clock, P. M., stopping at all stations for produce, and reaching Portsmouth in time for the Steamers to Baltimore, Philadelphia and New York. Schedule of time and rates to be given in a few weeks.

The following directions should be observed to insure the best prices :

Forward Berries in crates made for the purpose, holding quart or pint baskets or boxes, it is a saving, as they arrive in good order and the crates can be returned at a very trifling expense.

Tomatoes, Peaches, Pears and Quinces in bushel slat boxes.

Forward all other Vegetables and Apples in flour barrels, or similar barrels made for the purpose, with osnaburg or bagging cloth tops, and with one inch auger holes in the sides and bottom.

Fill barrels as full as possible before covering, to prevent too much slackness after settling, and have the contents of uniform quality, not topped off with the best articles for show ; it injures the sales, as that brand is avoided after the *first* sales.

Mark packages plainly, on top and side, also mark owner's initials in corner and *where from*—unless the forwarder has a stencil plate, from some house in one of the cities to which he forwards his produce, on which is a *number* that is known to the house, and by which all his packages are known to that house.

I recommend this method of stencil marking as far the best that has been suggested, as it not only enables the producer to mark plainly, but enables the commission merchant whose name is on the stencil to know, by number, from whom the packages come, which is all-important, as vegetables and fruit travel faster than the mails frequently. Merchants will supply the stencil plates, brushes, &c., free upon application.

Send Bills of Lading, by mail, to your merchant, though your produce is frequently sold before it arrives.

Peach and Potato boxes must hold one bushel, and will be 24 inches long, 15 inches wide and 9 $\frac{3}{4}$ inches deep, with a division in the middle. The ends and middle piece should be made of $\frac{3}{4}$ inch thick stuff, the sides $\frac{1}{2}$ inch stuff—cypress if possible—finished off neatly and stencil marked on both ends.

Inferior stock in good packages commands better prices than good stock in inferior packages—(rough unsightly packages.) But good stock in neat packages will always bring the highest market prices, and that brand will always be sought after by purchasers.

Arrangements can be made if desired, to return barrels and crates at about 10 cents each, to producers on this road.
